Itinerary Guidebook

MISSION OF SCOUTING AMERICA

The mission of the Scouting America is to prepare young people to make ethical choices over their lifetimes by instilling in them the values of the Scout Oath and Law.

A PICTURE OF THE FUTURE FOR SCOUTING'S SECOND CENTURY

In Scouting's second century, we are building the leaders of tomorrow. Scouting's dynamic and engaging journey beckons to America's young people. Our exciting programs and outdoor adventures inspire lives of leadership, character, and service. Relevant and adaptive, we are a trusted advocate for youth. Our adult volunteers and employees are widely admired for their leadership excellence. True to our mission, Scouting reflects our nation in its ethnic diversity and shapes our nation by developing responsible citizens.

VISION STATEMENT – PHILMONT SCOUT RANCH

It is the vision of Philmont Scout Ranch to continue to positively impact the lives of young people and their Scouting leaders through inspiring and effective delivery of the finest Scouting possible through backcountry adventures and Training Center experiences.

It is our further vision that these experiences will be expanded to help meet increasing demands. All future growth must be accomplished with minimal ecological impact on resources to insure the preservation of this great asset to serve future generations of Scouts.

Philmont Scout Ranch gratefully acknowledges the generous support of
the NRA Foundation.

Their support made possible the reopening of Harlan Camp following the devastating 2018 Ute Park Fire. This partnership plays a vital role in strengthening programs that serve and inspire the youth of our nation.

Philmont Itineraries

Setting the Course

You and your crew are about to embark on a great outdoor Scouting experience. Your Philmont trek will leave you and your crew with lasting memories and lifetime values. It will change your life forever! This *Philmont Itinerary Guidebook*, and additional resources listed below, will help you and your crew select an itinerary and continue your trek preparation.

The *Advisors Guidebook* is designed to assist council contingents and units in planning a successful Philmont adventure. Both experienced and new advisors will find answers to many of their questions regarding their upcoming trek.

The *Guidebook to Adventure* is a guide to preparing for Philmont treks by walking readers through the proper gear, what to expect from start to end of a Philmont trek, and program opportunities.

This *Philmont Itinerary Guidebook* helps you and your crew select an itinerary that matches everyone's physical ability and program desires and helps build your crew into a team where everyone is successful.

The *Philmont Preparedness Seminars* are monthly livestreams, each focused on a topic related to preparing for a Philmont trek. One seminar is almost entirely dedicated to the itinerary selection process and is highly recommended for lead advisors.

All of these and many other resources are available on Philmont's Resource Toolbox: www.philmontscoutranch.org/resources.

Selecting Itineraries

Philmont's backcountry remains pristine largely because of the pre-planned itinerary system. With twenty-four 12-Day itineraries, twelve 9-Day itineraries, twelve 7-Day itineraries, and a variety of cavalcades to choose from, a crew can take advantage of many unique program features and select a hike that meets the physical ability of each crew member. Following a pre-planned itinerary helps Philmont know the locations of each crew for contact should an emergency arise. This plan is also a vital part of Philmont's overall conservation and wilderness ethics.

Each itinerary is reviewed annually, and changes are made as needed. When selecting your itinerary, **DO NOT USE A PREVIOUS BOOK** or rely on any itinerary information not published at www.PhilmontScoutRanch.org. **THE ONLY OFFICIAL PHILMONT ITINERARIES ARE THOSE PUBLISHED IN THE LATEST VERSION OF THE PHILMONT ITINERARY GUIDEBOOK AND THE PHILMONT CAMPING GATEWAY. Please note the revision date on the bottom left corner of this document and compare it against the latest version on the Philmont Website.**

NOTE: Itineraries may change due to adaptations made during the season to adjust capacities, program schedule, logistics, reduce hazards, etc. Please check your final crew leader copy upon arrival, as it will be the correct and most up-to-date plan for your trek.

Crews will review their respective available itineraries and select all that they would like to take. 12-Day, 9-Day, and 7-Day crews will need to select their **top six (6)** itinerary choices. Those opting to have a sister crew will need to select their **top eight (8)** itinerary choices. Cavalcade crews will need to select their **top five (5)** itinerary choices.

Starting at 9am on January 16th MST on the year of your trek, you can enter your itinerary preferences. If you need to, you can change your itinerary choices until 9am MST on February 16th. At that time, itinerary selection will close so Philmont can run an automated process to assign itineraries. Every effort will be made to assign as many crews as possible their **top choices**. You will be notified by email after your itinerary has been assigned (typically about a week later).

Crews that do not enter itinerary choices prior to 9am MST on February 16th can do so after the automated process is completed – the system will try to assign available itineraries based on your choices. If none of your choices are available, you will be asked to enter more choices.

For 7, 9, & 12-day treks, Philmont assigns only two crews each day to the same itinerary. **Each crew must hike independently.** The maximum crew size is 12 people, and the minimum crew size is 8 people, including adult advisors.

Before making a final itinerary selection, crews should check the Philmont website under the Itineraries link for any updates that may have occurred. Various tables and charts in this book are published to the website as well with a date stamp indicating when they were last updated.

The Challenge

Most crews choose either a “challenging” or “rugged” itinerary. Hiking with a heavy pack in elevations from 6,000 to nearly 12,500 feet is a major physical challenge. It is not possible to “acclimatize” by spending a few days at elevations one is not accustomed to. Altitude sickness can usually be avoided by not sleeping above 9,000 feet for the first few days on the trail. Philmont considers this and many other factors when planning the itineraries.

Youth participants are typically fully capable of mastering the challenge. **Many adults who lead sedentary lifestyles have great difficulty and could potentially be placing themselves in harm's way. Refer to the Advisors Guidebook for more information.**

Itinerary Rating

The rating or degree of difficulty of each itinerary is determined by many factors such as mileage, elevation change, number of layover days, size of food resupplies, distances to water sources, time spent in burn scars, time between staffed camps, and topography to name a few. A little practice using the Philmont Overall map will show many areas where there are steep climbs and descents. When contour lines are closer together, the terrain is steeper. The contour interval on the overall map is 100'. Philmont's North and South Sectional Maps have 50-foot green contour lines.

A “**Challenging**” itinerary will allow the crew more time for program. It also allows time to take some interesting side hikes, visit backcountry trading posts, and enjoy the serenity of the backcountry trail camps.

A “**Rugged**” itinerary, although offering more physical challenge, is very enjoyable for a crew that has trained. It also offers a variety of exciting programs.

A “**Strenuous**” itinerary is just as it sounds. A great experience for a crew of physically fit Scouts, Venturers, and capable adults. More time is devoted to hiking. However, a well-prepared crew can still experience several programs. Many seasoned crews who have hiked together several years choose a strenuous itinerary.

A “**Super Strenuous**” is by far the most difficult and, for early rising Philmont crews, very rewarding! These few itineraries are highlighted by climbing some of Philmont’s highest peaks and hiking long days of many miles. They should be attempted by older, more experienced crews where every person is in excellent physical condition with the understanding that program opportunities will be limited.

Itinerary Maps, Distances & Elevation

The description of each itinerary shows a total distance in miles as well as the mileage and elevation gain and loss for each day of the trek. These are calculated using Philmont’s GIS data. Be aware that these distances are measured from camp to camp and do not include most side hikes, going to or from conservation sites, or hiking to program areas. Because of this, most crews can expect to cover 25% to 30% more mileage than is shown. Mileages are provided in this document to give a consistent, comparable distance between locations in the itineraries.

Itinerary maps are provided for illustrative purposes only and may not show all possible routes, side hikes, etc. **These maps should not be used for detailed planning or navigation.** An overall map will be mailed to your crew in the spring, or you may purchase sectional maps from the [Tooth of Time Traders](#) to assist your crew with planning.

The elevation profiles show the relationship of elevation gained and distanced hiked to help give a better sense of the overall hiking challenge for each day.

On some itineraries, suggested side hikes will be shown as dotted lines on both the map and elevation profile. These side hikes are not reflected in the overall mileage or mileage/elevation charts.

Crew Rendezvous

Often crews from the same troop or contingent would like to spend time in the same camp. This rendezvous can be planned by choosing itineraries that would be in the same camp on the same day. Please refer to the **Itineraries at a Glance** chart and the **Itinerary Rendezvous Locations** table.

Selecting Your Itinerary

The three tools your crew needs to make their top itinerary choices are:

1. The Philmont Itinerary Guidebook and/or the Itinerary Explorer (found in the Philmont Gateway system)
2. Philmont overall map
3. The Guidebook to Adventure which provides a brief description of the available programs.

Tips For Selecting an Itinerary

Firstly, the itinerary must be the **youths'** decision! The crew's choices must meet each crew member's physical ability and should be choices the crew is willing to hike. The itinerary should be a balance of exciting program features (many of which are offered at several locations) and quality hiking. Every itinerary provides a full Philmont experience.

Many crews determine their own unique method of choosing their top itinerary choices. Some tried-and-true methods are:

1. Based on your conditioning program, determine the level of difficulty that best suits the crew.
2. Have each crew member select their six (6) favorite program features from the list in the Guidebook to Adventure or in the following pages of this Itinerary Guidebook.
3. Tally votes for each program and use the online **Itinerary Explorer** or the **Programs/Itineraries/Camps and Programs Included in Itineraries** sections which follow for your itinerary length. These charts will help you and your crew find itineraries that have most of the programs desired by the crew.

The description page for each itinerary (located opposite the sketch map and elevation graph) lists the camps where the crew will spend the night, program features they may participate in each day, commissaries where the crew will pick up food, and potential conservation sites. **Once a crew is assigned an itinerary, it is required to spend the night in the specified camps and pick up food at the commissaries shown.**

Itinerary Explorer

In addition to printed and digital resources listed above, a web-based tool is available to crews which assists with the process of narrowing down and selecting itineraries. This tool is called the "Itinerary Explorer" and is accessed from the crew's dashboard page in the Philmont Gateway. (The button will go live on December 16th when Itineraries are published.) It will allow a crew to filter the features that are wanted or not wanted in an itinerary. Filters are available for Difficulty, Peaks, Activities, Camps, and Camping Headquarters Hike options. As choices are made in each filter, the itineraries which meet the crew choices will be noted at the bottom of the page for further review. It is a very easy-to-use and highly effective way of finding the itinerary that is best for your crew! Further instructions are available on the Itinerary Explorer page in the Philmont Gateway, with a sample to show how the Itinerary Explorer works.

Camp Programs & Pass Throughs

In most cases, the program features listed are those that an average, motivated crew may participate in. **They do not in any way guarantee that a crew will be able to do all the programs shown.** This can vary depending on how fast a crew hikes, morning start time, weather, crew dynamics, and other conditions. Program may be limited or curtailed due to staff responses to emergencies, first aid, search and rescues, equipment issues, etc. Some or all program elements are not available as the staff respond to these priority needs. Please be patient with our staff as they work through these scenarios and be a positive example for your crew.

Crews may also be able to participate in programs which are in camps en route to their daily destination. They are listed as “passthrough program”. While special, abbreviated programs may be available, crews should not expect to participate in the full program offerings available to crews which initially selected them in their itinerary. The crew leader should check with the backcountry camp staff when arriving at a “passthrough” camp to see what may be available.

Itinerary Programs

A few programs such as the chuckwagon dinner, horse rides and the use of burros for equipment packing require scheduling when the crew leader and crew advisor meet with their Trip Planner in Logistics.

There may be a few itineraries where programs are listed with an “**OR**” condition. For example, “Side hike Tooth of Time **OR** Chuckwagon Dinner at Clarks Fork”. Crews must select the program(s) they wish to take part in during Trip Planning in Logistics (either the Tooth of Time side hike OR the chuckwagon dinner in this example). It is not possible or practical to do all the programs listed and selection of one choice will permit the proper meals, buses or other resources to be reserved.

Burro Packing

If your crew chooses an itinerary that includes burro-packing and is assigned that itinerary, your crew **MUST TAKE THE BURRO**. Packing burros has long played an important role in Philmont’s history and lore. It’s a great way to lighten everyone’s load and create stories for years to come. Each crew on a burro-packing itinerary is issued one or two burros and will be given training on how to pack and care for the burros. Remember to pick a name for your burro(s) and take many photos with it and your crew! **If one or more members of your crew have allergies which prevent them from being around burros, do not choose any itineraries which involve burros!**

Horse Rides

Philmont owns and maintains a remuda of several hundred western horses, with strings located at Beaubien and Ponil. Both camps offer horse rides along mountain trails to crews on certain itineraries. Crews which are assigned an itinerary with horse rides must make reservations at Logistics on Day 1 at Camping Headquarters. While you are at the camp preparing for your ride, please cooperate with Wranglers by following all safety instructions, including rules for riding, attire, helmets, etc. Long pants and closed-toe shoes are required for protection.

Important Horse Ride Notes

- **Horse ride capacity is limited. Individuals who sign up for the ride are expected to take part. Otherwise, other Scouts miss out on having that experience.**
- **Horse rides are not available on July 4th as Philmont Scout Ranch continues a decades-long involvement in the Cimarron Maverick Club’s 4th of July Rodeo.**
- **For the health and safety of the horse and the rider; all riders must meet the height/weight requirements outlined in the following chart.**

Horse Ride Height/Weight Limit Chart

Height	Max Weight	Height	Max Weight
56"	125	65"	168

Reserving Your Itinerary

Philmont utilizes the Philmont Camping Gateway for you to enter your itinerary choices. Reservation contacts and/or lead advisors will need to log-in and complete the appropriate steps by following the instructions in sections below to be able to select their top itinerary choices. Remember, crews have from January 16 at 9am MST until February 14 at 9am MST to enter their top itinerary choices. You will be notified by email after your itinerary has been assigned.

Key Terms In Reserving Your Itinerary

Crew Roster – Every crew hiking in the Philmont backcountry must submit important participant information online prior to arriving at the Ranch. Philmont logistics and medical staff utilize the information found in each roster to understand the location for safety of backcountry participants should an emergency arise.

Reservation Contact – This person created the initial Philmont reservation and has been the primary contact for payments and planning. Sometimes the reservation contact also plays the role of a lead advisor. Once inside the Gateway, reservation contacts have the option to view and modify information for every crew roster in their reservation.

Lead Advisor - Each Philmont crew has one designated lead advisor. This adult organizes their crew and enters information for each crew member into the Philmont Camping Gateway prior to arriving at Philmont. In addition to participant information, the lead advisor also submits their planned Philmont arrival and departure travel information online.

Sister Crew – Crews will have the option to request to be paired on their itinerary with another crew arriving the same day. Lead advisors may select a sister crew as soon as they access their crew roster through the link received via email. Once a sister crew arrangement has been confirmed by both crews, either crew's lead advisor may submit itinerary preferences for both crews when Itinerary Selection opens at 9am on January 16. *Remember: crews must still hike independently.*

Key Itinerary Dates

December 16, 2025: *Itinerary Guidebook published; Itinerary Explorer Tool goes live.*

January 16, 2026: *Itinerary Selection opens (9am MST)*

February 16, 2026: *Itinerary Selection closes (9am MST)*

Entering Itinerary Selections

READ #1 if you are a reservation contact ONLY.

READ #2 if you are a reservation contact AND a lead advisor.

READ #3 if you are a lead advisor ONLY.

1. Reservation Contact ONLY

- A. **Access link:** Early in the fall you received an email from rosters@registerphilmont.org with a link providing access to the Philmont Camping Gateway. Use this link to access your reservation and enter your itinerary selections.
- B. **Enter password:** Utilize the password you created during the initial registration process. If you can't remember this password, click "Forgot Your Password?" and follow the prompts. You will use this password to access the Philmont Camping Gateway until the day your crew arrives.
- C. **Your contact information:** Enter your contact information.
- D. **Are you a lead advisor?:** Click "No" since you are ONLY the reservation contact.
- E. **Identify each lead advisor:** On the following page(s), match the first name, last name, and email address of your lead advisor(s) to their correct expedition. *NOTE: Reservation contacts who access the Camping Gateway and identify each lead advisor prior to the Itinerary Selection opening increase their crews' likelihood of receiving their top itinerary priority.*
 - i. Lead advisor Receives Email: Once a lead advisor's information is submitted, they will receive an email from rosters@registerphilmont.org with a link providing access to the Philmont Camping Gateway.
- F. **Get started early:** The Philmont Camping Gateway is a planning tool.
 - i. See which CPR & Wilderness First Aid requirements have been met/need to be met.
 - ii. Understand if any youth/adult requirements have not been met.
 - iii. Quickly remove, restore, or add participant information as roster changes occur.
 - iv. Discover any weight/BMI issues for participants on the roster.
 - v. Easily print your crew's Philmont roster.

2. Reservation Contact who is ALSO Lead Advisor

- A. **Access link:** Early in the fall you received an email from rosters@registerphilmont.org with a link providing access to the Philmont Camping Gateway. Use this link to access your reservation and enter your itinerary selections.
- B. **Enter password:** Utilize the password you created during the initial registration process. If you can't remember this password, click "Forgot Your Password?" and follow the prompts. You will use this password to access the Philmont Camping Gateway until the day your crew arrives.
- C. **Your contact information:** Enter your contact information.
- D. **Identify yourself as a lead advisor:**
 - i. Reservations with only 1 crew: Click "Yes" on the screen that asks if you are the lead advisor.
 - ii. Reservations with multiple crews: Choose the crew with the correct expedition number and then click "Yes" confirming that you will be the lead advisor for this crew.
- E. **Identify lead advisor(s) for remaining crews:** On the following page(s), match the first name, last name, and email address of your lead advisor(s) to their correct expedition number.
 - i. Once a lead advisor's information has been submitted, they will receive an email from rosters@registerphilmont.org with a link providing access to the Camping Gateway.
- F. **Enter additional information about yourself:** This information is required for all backcountry participants.
- G. **Sister crews:** Establishing a sister crew arrangement.
 - i. Click the purple "Itinerary Selection" button near the top of your Crew Roster page.

- ii. Click the “Choose Sister Crew” button.
 - iii. Select your desired sister crew from the drop-down list of available crews.
 - iv. NOTE: The lead advisor of your desired sister crew will be prompted to accept this sister crew arrangement the next time they access their crew roster page.
 - v. Working with the lead advisor of your desired sister crew, finish confirming your sister crew arrangement BEFORE Itinerary Selection opens. Failure to accept/confirm a sister crew arrangement results in delays in selecting top itinerary choices.
 - vi. Any sister crew arrangement may be canceled when either crew clicks the “Cancel” link in the blue sister crew bar that appears at the top of their roster.
- H. **Itinerary preferences:** When the Itinerary Selection opens, you will be asked to log in to the Philmont Camping Gateway and choose your top itinerary preferences. When the Itinerary Selection closes an automated process will be run to assign itineraries. If you do not submit your itinerary preferences within this timeframe, you will still be able to enter them after the automated process runs. However, your itinerary will be assigned from those still available for your arrival date. YOU MUST ACCESS THE CAMPING GATEWAY AND SUBMIT ALL OF YOUR OWN PERSONAL INFORMATION BEFORE YOU WILL BE ABLE TO SUBMIT YOUR CREW’S ITINERARY PREFERENCES.
- I. **Arrival/departure information:** You will be asked to verify and update your arrival and departure travel information. If you don’t know the details yet, skip this step for now, but ensure you enter it later and update it if there are any changes to travel plans. This information is used by multiple departments to schedule events on your arrival day.
- J. **Participant information:** Click on the “Modify” button in the row that corresponds to the crew you wish to begin adding participants to. As the lead advisor, you will see your information has already populated in the first row of the roster.
- K. **Roster information:** Collect a completed copy of the Roster Information Worksheet from each participant.
- L. **Add adults:** Click on the green “Add Adults” button in the top section of the blue roster. Complete all required fields and click “Save”.
- M. **Add youth:** Click the green “Add Youth” button in the bottom section of the blue roster. Complete all required fields and click “Save”.
- N. **Keep updated:** The information entered in the Philmont Camping Gateway is utilized by Philmont to pack food, make tent assignments, assign rangers, and schedule trip plans, medical recheck, and trailhead buses. The further ahead of time information is entered, the smoother the check-in process will be upon arrival. You can also use it to keep track of the following:
- i. See which CPR & Wilderness First Aid requirements have been met/need to be met.
 - ii. Understand if any youth/adult requirements have not been met.
 - iii. Quickly remove, restore, or add participant information as roster changes occur.
 - iv. Discover any weight/BMI issues for participants on the roster.
 - v. Easily print your crew’s Philmont roster.

3. Lead Advisor ONLY

- A. **Received access link:** When added to the roster by your reservation contact, you will receive an email from rosters@registerphilmont.org with a link providing access to the Philmont Camping Gateway.
- B. **Create password:** The first time you click the link to enter the Camping Gateway, you will be asked to create a password. You will use this password to access the Camping Gateway at any time until you arrive at Philmont.
- C. **Enter information about yourself:** This information is required for all backcountry participants.
- D. **Sister crews:** Establishing a sister crew arrangement.

- i. Click the purple “Itinerary Selection” button near the top of your Crew Roster page.
 - ii. Click the “Choose sister crew” button.
 - iii. Select your desired sister crew from the drop-down list of available crews.
 - iv. NOTE: The lead advisor of your desired sister crew will be prompted to accept this sister crew arrangement the next time they access their crew roster page.
 - v. Working with the lead advisor of your desired sister crew, finish confirming your sister crew arrangement BEFORE Itinerary Selection opens. Failure to accept/confirm a sister crew arrangement will result in delays selecting top itinerary choices.
 - vi. Any sister crew arrangement may be canceled when either crew clicks the “Cancel” link in the blue sister crew bar that appears at the top of their roster.
- E. **Itinerary preferences:** When the Itinerary Selection opens you will be asked to log in to the Philmont Camping Gateway and choose your top itinerary preferences. When the Itinerary Selection closes, an automated process will be run to assign itineraries. If you do not submit your itinerary preferences within this timeframe, you will still be able to enter them after the automated process runs. Conservation

In 1938, oilman Waite Phillips donated the first tract of what became Philmont Scout Ranch to the Boy Scouts of America (now Scouting America). Prior to his ownership of the Ranch and his donation the Ute, Comanche, Pueblo, and Jicarilla Apache people had inhabited these amazing lands. American colonization began in the 1800s as mining, logging, and ranching industrialized the vast landscape. The high desert environment began to experience use of an unprecedented intensity. During the past 80+ years, Phillips' generous gift, alongside subsequent thousand-acre acquisitions, has hosted over one million Scouts camping, hiking, and horseback riding in God's Country.

Intense land use over the past 200 years hasn't occurred without an impact on the local ecosystem and landscape. Phillips envisioned that Scouts have the opportunity to give back to the Ranch by working to preserve its integrity as a natural and recreational resource. Since Philmont's beginning, visiting Scouts have worked to preserve, repair, and enhance the natural integrity of the Ranch for future generations by participating in projects ranging from trail construction and maintenance, stream restoration, and fire rehabilitation to forest fuels reduction, erosion control, and invasive species removal. Your crew will have the same opportunity this coming summer. As a requirement of the Arrowhead Award, your itinerary features an assigned 3-hour conservation project critical to the continued operation of Philmont Scout Ranch. This project will be facilitated by trained Conservation Department staff at one of several conservation sites across the Ranch.

Crew loads will be assessed for each Conservation site after itinerary selection has been completed. **Attendance (high or low) will be assessed for each site, and due to site specific needs, priorities, land use agreements, etc., all project locations, times, and work are subject to change. Project assignments will be updated after itinerary selection. These modifications will be communicated by April 1. Any subsequent modifications will be communicated in as timely a manner as possible.** These necessary changes are not made lightly. Every effort is made to provide the least interruption to your crew's trek. Your work is vital to the continuation of sustainable land use at Philmont. On behalf of the Ranch, Scouting America, and every Scout who has ever or will ever visit Philmont, the Conservation Department extends its deepest appreciation for your time and efforts.

Conservation Sites & Projects

Beaubien – Forest Fuels Reduction

If you've previously visited Philmont's south country, you've noticed that the forests are very dense and crowded with trees. Absent regular wildfires, these stands grow in an unhealthy and unnatural way and increase the severity of future fires. This project focuses on removing trees which have encroached into the meadow over the last 100 years and helps create a more fire-resilient forest as part of a healthier Philmont. Crews will help to build slash piles (burnable in winter), from trees cut by staff, returning the forest to a more natural state.

Thanks to the efforts of Scouts in previous seasons, this worksite has progressed a mile or more from the Beaubien camp.

Cimarroncita – Reforestation

In 2018 the Ute Park Fire catastrophically altered the landscape surrounding Cimarroncita. Crews taking part in this project have the opportunity to assist with the planting of Ponderosa Pine seedlings in the footprint of the devastating fire. These new seedlings help erosion control efforts and advance the burnt landscape's recovery.

Cimarroncito Creek – Stream Restoration

One of Philmont's iconic waterways, Cimarroncito Creek starts in the backcountry and ultimately runs east past Philmont's property boundary near base camp. The Conservation Department received a grant to start a large-scale conservation effort which should reverse erosion and channelization of the wetlands caused by antiquated land use practices used in the past. ***This project is not assigned to any itineraries but may provide opportunities for early arriving crews to complete a conservation project prior to departing to their trailhead on select itineraries! This can***

either be done in addition to the backcountry project or done in lieu of the backcountry conservation project. This can be found in the travel plans system in the Philmont Gateway.

Elkhorn – Trail Replacement

If you've ever hiked between Flume Canyon and Elkhorn, you know why we're building this trail. Help forge a new path that replaces a steep, badly eroded route to the top of Dean Skyline. Climbing from the bottom through a Ponderosa Pine and Douglas Fir forest before emerging into the 2002 Ponil Fire scar, this hike will eventually afford sweeping views of Mt. Baldy, Little Costilla, the Spanish Peaks, and Culebra. As work progresses, crews will also have the opportunity to help stabilize and restore the old path to a natural condition. Join us as we retire a dreaded slog and breathe new life into a landscape once consumed by a record wildfire.

Be prepared to hike up to a mile and a half from the bottom, or a mile from the top.

McCrystal Creek – Stream Restoration

This project will occur on the Valle Vidal Unit of the Carson National Forest, providing a unique opportunity to be stewards of Philmont's relationship with our public lands. Working with Philmont Conservation staff, crews help with a stream restoration project to install instream flow and sediment control structures in an effort to reverse some of the legacy impacts on this waterway.

Be prepared to hike up to a mile or more from the meeting place near McCrystal Campground as the project progresses up the stream through the season.

North Fork Urraca – New Trail Construction

Ascending out of the bottom of the North Fork Urraca Canyon, this new trail will eventually find its way to the Stockade Ridge Camp. This trail will provide unique views of the ridge and the Tooth of Time as hikers literally cross underneath it. It will also access new camping and a natural spring along the hillside, which will provide another option for crews hiking the Tooth. The bottom section of the trail is steep and thick with trees before climbing up to meadowy benches and crossing rocky canyons.

Crews should be prepared to hike up to a mile from the intersection at the bottom of the canyon to the new construction.

Sawmill – Trail Construction

Working directly out of Sawmill, crews will construct a new hiking trail on the north side of Cito Peak. This trail follows a 75-year-old logging road to the edge of the canyon. From there the trail crosses steep terrain and some of the only old growth forests remaining at Philmont. Untouched by loggers, homesteaders, or by fire this hillside has not seen humans in a long time. Eventually the trail will burst into the 2018 Ute Park Fire burn scar which provides dramatic views of Tooth Ridge and the plains. Full of elk and deer, this trail provides critical access to new camping areas and replaces old and unusable trails at the bottom of Sawmill Canyon. Eventually, this trail will be connected to the Order of the Arrow Trail Crew project at the summit.

Crews should be prepared to walk up to a mile and a half or more by the end of the summer.

Sioux – New Trail Construction

Building switchbacks and blazing a new trail in the next step of the long-term development of a hiking route over Wilson Mesa. After completing this new trail to Sioux, the process of opening the top of Wilson Mesa to hiking in one of the last inaccessible areas of Philmont begins. This trail begins at Sioux and will ultimately break through andesite rimrock to gain the top of Wilson Mesa with panoramic views of Philmont's North Country and Colorado. Crews will begin work at the camp itself and will have to hike up to a mile as the summer progresses.

50-Miler Award

Those interested in the 50-Miler Award should note that in addition to completing a 50-mile trek, the award requires a total of 10 hours of conservation work. However, there are some opportunities to complete all requirements for this patch during the timeframe spent here at Philmont:

1. Select the 50-Miler 12-day itinerary – This itinerary assigns crews multiple conservation projects outlined above, plus one or more one-hour specialty conservation education programs focused on forestry or geology. This provides crews with opportunities to experience a more in-depth look at all of the different types of work required to manage the resources of the Ranch.
2. Select any traditional trek of 50 miles or more and complete an additional seven hours of conservation work with your crew back in your home area.
3. Arrive to Philmont early and take part in the Cimarroncito Creek Stream Restoration Project. Details found in the Philmont Gateway for eligible itineraries.

More details on requirements for the 50-Miler Award can be found on the [Scouting America website](#).

Philmont's Neighbors and Land Use Agreements

Philmont is privileged to utilize over 100,000 vast acres of neighboring property for hiking and camping purposes. To maintain and build upon these solid partnerships, it is imperative that each Philmont participant and staff member responsibly enjoys, respects, and adheres to the land use agreements that are in place. Low-impact camping and hiking methods are used in agreement with each of our neighboring landowners. These responsible camping/hiking methods have earned both Philmont and Scouting high praise. Crews trekking into our neighboring properties will be instructed in Leave No Trace and Low Impact methods.

Carson National Forest: Valle Vidal Unit

Since 1988, Philmont hikers have enjoyed trekking through portions of the remarkable 100,000-acre Valle Vidal (“Valley of Life). Today, Philmont campers enjoy roughly 59,000 acres in the Colfax County portion of the property. The Valle Vidal borders Philmont near Dan Beard and Philmont’s North Ponil country. It is home to New Mexico’s largest elk herd. As a part of Philmont’s special use agreement with the U.S. Forest Service, Philmont campers perform meaningful conservation projects and practice Low-Impact Camping in the Valle Vidal.

“Meadow Walking” is another great feature of the Valle Vidal, going from location to location using only map and compass or GPS. With few established trails, navigating through large Ponderosa Pine always proves to be a rewarding challenge for Scouts. Crews are also likely to experience a night under the stars by themselves in the Valle Vidal’s pristine, low impact camps.

Philmont crews that trek into the Valle Vidal are shining examples of Scouting’s commitment to being good stewards of our National Forests. As our public lands become less wild, it behooves us all to take advantage of this rare opportunity to experience the grandeur of the amazing Valle Vidal. Philmont has redesigned the Valle Vidal itineraries to offer even more exciting programs. Each crew assigned a Valle Vidal itinerary will need a *North Country Sectional Map*, which can be purchased at [www.ToothofTimeTraders.com](#). Crews hiking in the Valle Vidal must have good map and compass skills.

Barker Wildlife Area

Philmont campers have enjoyed hiking across the rugged Barker Wildlife Area since 1964. The 5,600-acre property is owned and operated by the New Mexico Department of Game and Fish. Philmont’s land use agreement with the Barker is for low-impact hiking only. Overnight camping is not permitted.

UU Bar Ranch: Greenwood Tract

Formerly part of the Vermejo Park Ranch, Philmont has utilized the Greenwood Tract for camping and hiking since 1990. Low impact hiking is permitted on the Greenwood Tract on established trails from Copper Park to the summit of Baldy Mountain only.

On the Trail

Whether hiking on Philmont, the Valle Vidal, or our neighbor's land by permission, crews are expected to travel responsibly — stay together, practice Scouting values, and exemplify the Principles of Leave No Trace. The crew's lead advisor is responsible for the health, safety, and discipline of the crew. Due to potential emergencies, such as catastrophic fires, crews must not deviate from their assigned itinerary. Changes are only permitted for bona fide medical emergencies and must be approved in advance by the Logistics Department.

The Philmont Experience

Each of these pre-planned itineraries provides several exciting programs at staffed backcountry camps, impactful conservation projects, and lifechanging hiking and camping opportunities in the Sangre de Cristo Range of the Rocky Mountains. Crews which utilize the provided resources, prepare mentally and physically, and arrive at the Ranch with positive outlooks ready for adventure are sure to enjoy the experience of a lifetime. Our staff can't wait to help facilitate that experience for each member of your crew!

Remember: There are no bad itineraries at Philmont!

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-1
Challenging (maximum program time with shorter hiking time) - 54 miles

Introduce yourselves to much of Philmont's South Country in this twelve-day program-focused expedition. You'll have plenty of opportunities to take advantage of a mix of high adventure and living history programs while taking in all that the South Country has to offer. Enjoy beautiful views of various meadows and peaks scattered along your route before learning about the Jicarilla Apache people who dwelt in this area. Be a part of preserving this land for future generations through your forest fuel reduction conservation project at Beaubien. Challenge yourselves on the rocks of Miners Park and take in the scenic views of the Tooth of Time from the Lover's Leap region. If your crew is up for it, hike up to the top of this iconic rock formation before descending into Base Camp!

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-5

Rugged (good mix of program and hiking time) - 57 miles

This rugged itinerary provides a wealth of living history experiences with a little bit of high adventure program mixed in as well. Start your journey with the only confirmed T-Rex track in the world and Native American petroglyphs as you head deep into the North Ponil Canyon. Move forward in time and learn about life for railroaders, loggers, and cowboys as you traverse canyons and ridges making your way towards Baldy Mountain. Challenge your crew to summit Philmont's highest peak at 12,441 ft. Swing by the Bent, St. Vrain & Company fur trappers at Miranda before transitioning to the present day with some high adventure programs. Be sure to soak up the iconic views of Baldy as you wrap things up in Ute Park and learn about fire ecology and wildlife conservation.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-6

Rugged (good mix of program and hiking time) - 65 miles

Enjoy Philmont's North Country along with the scenic Valle Vidal in this program focused itinerary. Experience a delicious chuckwagon dinner and a fun filled campfire show at the Philtorn Five Points camp at Ponil before setting off into the neighboring Valle Vidal. Use your land navigation and low-impact camping skills as you traverse the vast meadows of the Valle and learn about astronomy and the Philmont's connection to astronauts before heading back into the heart of Philmont's North Country. Explore the rich history of the North Ponil Canyon from the first people in this land to the logging operations of the Cimarron & Northwestern Railway at Indian Writings and Metcalf Station. While the terrain of this itinerary is less strenuous than others, it does have relatively high mileage and requires crews to have strong land navigation and low-impact camping experience.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-7

Rugged (good mix of program and hiking time) - 64 miles

This 12-day itinerary begins by heading far north from the Ponil country into the breathtaking Valle Vidal unit of the Carson National Forest. There you will have the opportunity to visit historic homesteads, learn about astronomy & space science at Ring Place, and take part in mountain biking at Whiteman Vega. Head back south to Ponil to experience the Philtturn Five Points Camp and enjoy a chuckwagon dinner and Cantina Show. As you head west along the South Ponil Canyon on your way to the bustling Baldy Mining District, be sure to check out the Continental Tie & Lumber Company at Pueblo and the gold mining program at French Henry. After an early rise to the 12,441 ft. summit of Baldy Mountain, you'll descend along Ute Creek to the scenic meadows surrounding Miranda and take part in the Bent, St. Vrain & Company fur trading program. This itinerary is ideal for crews wanting to challenge themselves while experiencing many unique programs.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-8

Rugged (good mix of program and hiking time) - 59 miles

Focusing primarily on the Baldy Region, this 12-day itinerary gives your crew ample time to explore Philmont's North Country. Enjoy rock climbing at Dean Cow and learn about logging with the Continental Tie & Lumber Company at Pueblano. Prepare to summit Baldy and discover what mining was like in this iconic region in the early 1900s. Mileage is relatively low on this trek to allow your crew plenty of time to take advantage of a mix of high adventure and living history programs. There is quite a bit of elevation gain in this itinerary, so be sure your crew is physically prepared and ready for an early start on summit day!

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-10

Rugged (good mix of program and hiking time) - 61 miles

Explore the numerous peaks of Philmont's South Country in this rugged itinerary. Lace up your hiking boots for your trek through time as you visit the high mountain ranchers, loggers, miners, and trappers that called this land home in the 19th and 20th centuries. Challenge your crew to summit some of the highest peaks at Philmont including Mount Phillips and take advantage of several opportunities to test your marksmanship. While mileage is relatively low on this itinerary, there are significant elevation gains and exposed burn areas which your crew will need to be physically and mentally prepared to overcome.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-22 Super Strenuous (maximum hiking time with minimum program time) - 82 miles

The most physically challenging itinerary at Philmont visits many of the less-traveled trail camps throughout the North and Central countries. Start your adventure at one of the most beautiful trail camps before making your way towards Baldy Mountain. Spend time learning about the lives of the Continental Tie & Lumber Company loggers before summiting Baldy Mountain. Explore the Central Country through the 2018 Ute Park burn scar into Sawmill for the opportunity to test your marksmanship. Join the miners of the St. Louis & Cimarron Mining Company for a day of work and the company meeting and top off your trek by hiking into Base Camp over the Tooth of Time and through the iconic 'You Made It' sign.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-23 Super Strenuous (maximum hiking time with minimum program time) - 81 miles

Super-strenuous treks are not recommended for inexperienced hikers, and this trek will challenge even those crews that spend their weekends in the mountains. High-mileage days are common but with difficulty comes the opportunity to experience some of the most unique parts of Philmont's North Country. Discover the rich history of gold mining throughout this region before taking in breathtaking views from the summit of Baldy Mountain, the highest peak on Philmont property. On your way out of Baldy country, stop by Miranda to pick up your burro. Relax and trade tales with the loggers of the Continental Tie & Lumber Company and the ranchers of Ponil and Clarks Fork. Enjoy lively campfire shows and opportunities to test your mettle with rock climbing programs and challenge courses. Whip up a delicious chuckwagon dinner before setting off to climb the Tooth of Time as you make your way back to Base Camp.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 12-24 Super Strenuous (maximum hiking time with minimum program time) - 87 miles

Tour the length of Philmont on this super strenuous trek that winds its way from Ponil down and over the Tooth of Time. Discover life in the Continental Tie & Lumber Company before hiking through the Baldy Mining District to look for gold like the miners of old. After summiting Baldy Mountain, make your way down into the Ute Park fire recovery zone for your reforestation conservation project. If your crew is up for it, side hike the second highest peak at Philmont, Mount Phillips. Enjoy a delightful chuckwagon dinner and show at Beaubien before finishing your trek by reaching the top of the Tooth of Time and hiking back into Base Camp in time for the closing campfire.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 9-12 Super Strenuous (maximum hiking time with minimum program time) - 60 miles

This nine-day itinerary provides wonderful rewards for high-performing crews willing to meet the challenge of long days and elevation changes. Traverse the 2018 Ute Park fire recovery zone and quickly gain elevation leading up to Mount Phillips. If you have time, enjoy the opportunity to test your marksmanship at various shooting sports staff camps. Enjoy the beauty of Beaubien Meadow with the high mountain ranchers and their lively campfire show. Descend past rivers and meadows before gaining elevation once again to reach the Summit of the iconic Tooth of Time. Along the way there are brief stops at many different staffed camps with opportunities for program, but only if your crew's hiking schedule allows.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 7-1
Challenging (maximum program time with shorter hiking time) - 26 miles

This trek begins in Ute Park with fantastic views of Baldy Mountain and the Cimarron River valley. Watch as the landscape and ecosystems change dramatically as you hike over ridges separating Bear Canyon, Dean Canyon, and Ponil Canyon with scenes that would fit well in any old western. In the Ponil country you'll have the opportunity to climb Hart Peak and explore all of the history of this region: from pre-historic dinosaurs and petroglyphs to railroading, cowboy life, and the very beginnings of Philmont Scout Ranch.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 7-2

Challenging (maximum program time with shorter hiking time) - 31 miles

This itinerary explores much of the Ponil country, which includes some of the richest history on the ranch. You'll start with dinosaurs and petroglyphs in the North Ponil Canyon. If your crew is up for it, take the side hike to Hart Peak, the highest peak on the original gift from Waite Phillips. Move up the canyon to experience railroad history at Metcalf Station. From there you'll pass through Dan Beard on your way to Ponil, the original Base Camp for Rocky Mountain Philturn Scout Camp. Learn about western lore and enjoy a chuckwagon dinner and Cantina show. After your Conservation project at Sioux, see the effects of the Ute Park Fire as you head for a relaxing night at New Dean. Enjoy recently reopened camp of Dean Cow before completing your trek with a hike down Turkey Creek Canyon.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary 7-4

Rugged (good mix of program and hiking time) - 34 miles

This itinerary provides an excellent opportunity to explore a wide variety of landscapes, and historical timeframes. Start out in the North Ponil Canyon to witness evidence of dinosaurs and the Ancestral Puebloan people. Learn about local railroad history and enjoy a campfire at Metcalf Station. Enjoy the rocky ridges and expansive vistas north country has to offer. Hike over Hart Peak and into Ponil, the original base camp for Philtum Rocky Mountain Scout Camp. Hike historic canyons and ridges previously traveled by loggers, cattlemen, and outlaws, before landing at the Cimarron River where the green valleys below Baldy Mountain meet the 2018 Ute Park Fire recovery area.

Cavalcade Maps & Descriptions

Cavalcade Overview

Cavalcade itineraries have been developed to provide the most varied and popular programs for your crew. Each itinerary includes a layover day to rest your horses and to provide your crew the opportunity to hike to a camp or landmark which may not be possible while you are on horseback.

The itineraries which have been developed for the Cavalcades have been designed to include a wide variety of staffed camp programs. However, bear in mind that a large part of the program for Cavalcades is the opportunity to spend hours on horseback while seeing the beauties and wonders of Philmont's backcountry. It will allow your crew to gain confidence and experience while riding and working with our finest domestic animal—the horse. Because of the length of some rides or due to unexpected events on the trail, some program opportunities at staffed camps may be unavailable by the time you arrive.

In order to beat afternoon thunderstorms or experience program opportunities, some days may require early wake up and saddling. Your crew will have to work smoothly as a team because some days can be very strenuous as well as exciting.

There are 8 itineraries available for Cavalcades in the South country and 6 itineraries for the North country. Please note that itinerary numbers that begin with the same digit (for example, S-2A and S-2B) are simply reversals of one route. The S or N denotes Southern or Northern itineraries.

A summary of the Southern and Northern Itineraries follows. After reading the itineraries and reviewing the programs offered at staffed camps, choose your top 5 itineraries (either Southern or Northern depending on how you are assigned by Registrar). As a reminder, Cavalcade expedition numbers that end in CV and CW are Southern groups and those ending in CX and CY are Northern groups.

Horsemanship

It is important for your crew practice horsemanship before your arrival. All members of the crew should be able to demonstrate the knowledge, skills, and experience required to complete the Horsemanship Merit Badge prior to arriving at Philmont for a cavalcade. Multiple long rides are also strongly recommended. Be aware that there is a great difference between 8 hours in the saddle at Philmont and 1 or 2 hours of practice at your local stable. While on the trail, your Horseman and Wrangler will coach your crew on sitting up straight and balanced in the saddle. However, if a horse is sored while on the trail due to sloppy horsemanship, the rider may have to walk or even be removed from the trail. Philmont strives to keep horses sound and usable for seven Cavalcades throughout the summer, and it is not fair to those who follow if horses are brought in with saddle and cinch sores.

After instruction by your Philmont Horseman, each crew member will be responsible for saddling and unsaddling their personal horse. You will also receive instruction on packing a horse and tying a diamond hitch.

Be aware that horses are large and powerful animals and that sudden accidents can happen. Be prepared to listen to the instructions given by your Horseman and Wrangler for your safety. Your crew should come with a positive attitude, a willingness to learn, and a respect for horses.

If your crew desires to practice horsemanship at a local stable, it is your responsibility as a lead advisor to research the safety record of the particular stable and to be sure the horses are appropriate for your level of experience. You must assume that horses and horseback riding may have the potential for injury. You should do as much as possible to manage the risks associated with horsemanship as you and your crew prepare for Philmont.

Cavalcade Physical Requirements

In addition to having previous experience Cavalcade participants must be able to mount a horse unassisted and meet the height/weight requirements laid out here:

Height	Max Weight	Height	Max Weight
56"	125	65"	168
57"	129	66"	173
58"	134	67"	179
59"	139	68"	184
60"	143	69"	189
61"	148	70"	195
62"	153	71"	200
63"	158	72"	206
64"	163	73" & up	210

Cavalcade Equipment

Each Cavalcade will have two or three pack horses. The packhorses plus your personal horse will carry all your personal crew gear.

Philmont will also provide all necessary horse gear including saddles, bridles, halters, saddle bags, stuff sacks, and helmets. Crew camping gear such as tents, pots, large spoon, pliers, camp suds, scrubby, matches, toilet paper, sump material, dining fly, bear bags, and bear rope will also be provided. Stoves and other shared gear outlined in the *Guidebook to Adventure* must be provided by the crew. Each participant must have a raincoat with a hood and rain pants which need to be one size larger. $\frac{3}{4}$ length slickers are optional.

While on horseback, each rider is required to wear western boots and long pants which you should bring with you. Riding boots must be smooth soled with a minimum 1-inch heel such as a roper or cowboy boot. They also must be a pull-on type boot (no laces or zippers). Riding helmets are also required for all participants while on horseback and are furnished by Philmont.

All personal gear (including sleeping bags) should fit in the stuff sack or saddle bags provided by Philmont. The saddle bags are approximately 3"x12"x12" per side. All crew camping gear and tack for horses is furnished. While horseback, you will be required to wear a riding safety helmet provided by Philmont.

See the *Guidebook to Adventure* for a specific equipment list and more information on Cavalcades.

Summary of Cavalcade Itineraries

North Country

Crews on Northern Itineraries will begin and end their horseback trip at Ponil. Day 1 is your arrival day at Camping Headquarters and all crews should arrive by noon. Your horseman will rendezvous with you at 1 pm at the Welcome Center and accompany you through Logistics, medical recheck and the base camp process. On the morning of Day 2, a bus will take you and your crew to Ponil with only the equipment you will need on the trail. Day 2 will be spent in Wrangler training and a circle ride which begins and ends at Ponil. From Day 3 to Day 7, you will be on the trail and will be camping out according to your chosen itinerary. The morning of Day 8, you will ride back to Ponil in time for an afternoon gymkhana at the Ponil arena. After the gymkhana, a bus

will pick you up and take you back to Camping Headquarters in time for dinner and Closing Campfire. Please leave time before departure on the morning of Day 9 for check-out at Camping Headquarters.

South Country

Crews on Southern itineraries will begin and end their horseback trip at Cattle Headquarters. Day 1 is your arrival day, and all crews should arrive by noon. Your Horseman will rendezvous with you at 1 pm at the Welcome Center and accompany you through Logistics, medical recheck, and the base camp process. Day 2 will consist of horsemanship training by your Horseman and Wrangler and a circle ride which begins and ends at Cattle Headquarters. You will again spend the night at Camping Headquarters. From Day 3 to Day 7, you will be on the trail and will be camping out according to your chosen itinerary. The morning of Day 8 you will ride back to Cattle Headquarters in time for an afternoon horseback gymkhana in the arena at Cattle Headquarters. After attending the Closing Campfire, your crew will spend their last night at Philmont in Camping Headquarters.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary N-1A
Challenging (maximum program time with shorter hiking time) - 29 miles

On the morning of day 3, your crew will leave Ponil and ride to Head of Dean. This is a medium long ride up and along the Dean Skyline Trail. Head of Dean borders the Baldy Country and offers challenge course programs. From there you will ride down switchbacks to meet the lumberjacks of the Continental Tie & Lumber Company. Learn the ropes from them and enjoy their campfire show before heading over the scenic Wilson Mesa towards Dan Beard camp. Dan Beard borders the Valle Vidal Unit of the Carson National Forest and offers challenge course low-impact camping. On Day 8, the trek finishes out with a ride from Metcalf Station up over the ridge back to Ponil in time to participate in the afternoon Gymkhana.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary N-2A
Challenging (maximum program time with shorter hiking time) - 30 miles

On the morning of day 3, your crew will depart Ponil and ride to Pueblano. This ride parallels the south Ponil creek and is cool and mostly shaded. At Pueblano there is lumberjack programming, and a celebrated evening campfire program. Day 4 will take you from Pueblano to Baldy town. At Baldy town, the crew will get commissary items for the second half of the trek, learn about mining history in the Sangre De Cristos, and will have a layover day with the option to summit Baldy Mountain. Day 6 is a short ride down to Miranda where there is fur trapper programming plus a lovely meadow for gymkhana practice. On day 7, the crew rides to Head of Dean and can enjoy the challenge course programming there before heading back to Ponil on day 8 and finishing the trek off with the Gymkhana competition.

Itinerary N-3B
Challenging (maximum program time with shorter hiking time) - 36 miles

On the morning of day 3, your crew will depart Ponil and ride to Pueblano. This ride parallels the south Ponil creek and is cool and mostly shaded. At Pueblano there is lumberjack programming and a celebrated evening campfire program. Day 4 will take you from Pueblano to Baldy town via French Henry where you'll learn about this historic mining region. At Baldy town, the crew will get commissary items for the second half of the trek. From Baldy Town, day 5 to Miranda is a short ride down through aspen forests. The crew will lay over at Miranda and have the option to summit Baldy Town on the layover day. Miranda also boasts a Fur Trapper historical interpretive program. Day 7 is a lovely ride to Head of Dean where your crew can experience challenge course programming before returning down the South Ponil canyon through Pueblano on day 8 to participate in afternoon Gymkhana at Ponil.

Itinerary N-4A

Rugged (good mix of program and hiking time) - 39 miles

On the morning of day 3, your crew will leave Ponil and ride to Dan Beard. This is a medium long ride up Horse Canyon and along Ridge Trail. Dan Beard borders the Valle Vidal Unit of the Carson National Forest and offers challenge course low-impact camping. Day 4, you will ride from Dan Beard to Pueblano through the Elliot Barker Wildlife area. This ride traverses Wilson Mesa, a beautiful and removed area bordering Philmont. Once at Pueblano there is spar pole climbing, lumberjack skills, and a celebrated evening campfire. Day 5 takes you from Pueblano to Baldy Town through more wooded areas. At Baldy Town, the crew will get commissary items for the second half of the trek, learn about mining history in the Sangre De Cristos, and will have a layover day with the option to summit Baldy Mountain. Day 7 takes you from Baldy Town to Head of Dean, with the option to pass through Miranda and stop for Fur Trapper rendezvous. You can also participate in the Challenge Course at Head of Dean. On Day 8, the trek finishes out with a ride from Head of Dean back to Ponil in time to participate in the afternoon Gymkhana.

Challenging (maximum program time with shorter hiking time) - 39 miles

The morning of day 3, the crew will depart Cattle HQ and ride west into the mountains. You will pass under Lover's Leap and ride up Stonewall pass and over to Abreu camp. At Abreu you can enjoy homesteading interpretive camp life, historic cabin tours, and a New Mexican family dinner. Day 4 brings you back over Stonewall pass and across the Bear Caves meadows through Crater Lake. This day is long, and you likely will not be able to stop for full program at Crater Lake in order to make it to Beaubien before sunset for cooking training with your horseman and wrangler. However there are some lovely views of the Tooth of Time from the campfire bowl at Crater Lake and it's a scenic place for lunch! From Crater Lake you will proceed up Fowler Pass into the verdant Bonito Canyon and then up the long meadow of the canyon bottom to Beaubien Camp for the night. At Beaubien you will stay two nights, allowing for a day of rest, a conservation project, and side hikes. Programming at Beaubien includes a chuckwagon dinner, western lore, and evening campfires. You will also have a commissary pick up at Phillips Junction nearby to receive your food for the second half of the trek. On day 6, the crew can enjoy another short ride and leisurely day directly down to Bonito Cow Camp. Day 7 is a mostly down-hill ride to Miner's Park where the program is rock climbing. On day 8, your crew will ride 6 miles in from Miner's Park back to Cattle HQ in time for the gymkhana competition.

2026 PHILMONT ADVENTURE ITINERARY

Itinerary S-4A
Challenging (maximum program time with shorter hiking time) - 33 miles

In this South Country Cavalcade you'll have a good mix of programs and scenery including shotgun shooting, western lore, rock climbing, and interpretive history. You'll start at Cattle Headquarters for wrangler training and a circle ride. On day three you'll ride through base camp and Heck Meadow to your northernmost point, Harlan Camp, in the 2018 Ute Park Fire recovery area. After taking part in shotgun shooting program, you'll head back south to Clarks Fork where you'll layover and take part in western lore programs, chuckwagon, and campfire shows. From here you will have many options for different side hike adventures. Ascend up and over Shaefers pass to Miners Park for rock climbing opportunities and head to Crater Lake for a visit with the Continental Tie & Lumber Company. Enjoy wonderful views of the Tooth of Time and look back on the trail you've ridden before wrapping things up by descending back into Cattle Headquarters.

PHILMONT HYMN

Silver on the sage,
Starlit skies above,
Aspen covered hills,
Country that I love.

Philmont here's to thee,
Scouting Paradise,
Out in God's Country,
Tonight.

Wind in whispering pines,
Eagles soaring high,
Purple mountains rise,
Against an azure sky.

Philmont here's to thee,
Scouting Paradise,
Out in God's Country,
Tonight.
